SRNT 2027

MARCH 3 -6 • SAN FRANCISCO

CALL FOR ABSTRACTS

SRNT 2027 • SAN FRANCISCO • MARCH 3-6, 2027

Submission System Opens: June 15, 2026
Submission Deadline: July 31, 2026

Call For Abstracts

The SRNT 2027 Annual Meeting will be held at the Hilton San Francisco Union Square in San Francisco, California. Submissions may be for symposia, individual paper presentations and posters describing cutting-edge research in nicotine and tobacco:

- Abstracts should summarize empirical research findings that have not been published or presented elsewhere at the time of submission.
- All abstracts will be peer reviewed.
- It is the expectation that trainees who are lead authors will present accepted papers/posters, rather than principal investigators or supervisors. We understand that there are occasions where this is not possible.
- Preference for symposia will be given to those submissions that address a substantive issue by integrating across two or more different areas of SRNT research (i.e., pre-clinical, clinical, and public health/policy/epidemiology)

Authors will have the opportunity to edit their submitted abstract until the July 31, 2026 deadline. Please note that abstracts marked as "In Progress" or "Incomplete" will not be considered. Likewise, abstracts without empirical findings will also be rejected. Complete funding information is required for all submissions. The SRNT Program Committee will make decisions regarding acceptance of submissions and notify presenting/lead authors in November 2026.

Deadline For Receipt Of Abstracts

Submissions must be received electronically and no later than 11:59 p.m. PDT on Friday, July 31, 2026, to be considered for inclusion in the program. Please review the submission instructions carefully.

PLEASE NOTE: If your abstract is accepted for presentation, you will be expected to register for the conference, whether or not you are able to travel to San Francisco. Someone else may present for you if travel is not possible, but if it's your abstract, you need to register.

Submission Window

Abstract submission links will be provided by SRNT on June 15, 2026. Submitters will be able to create a new submission or edit an existing submission up to the closing date of July 31, 2026. Further detailed instructions will be provided on the SRNT 2027 Annual Meeting site when the abstract system opens.

Eligibility To Submit

In keeping with our commitment to anti-racism, SRNT no longer accepts abstracts that have received any funding from the Commercial Tobacco Industry. *SRNT defines the Commercial Tobacco Industry as manufacturers of commercial tobacco products and their wholly or partially owned subsidiaries, including any e-cigarette, vaping, or other ENDS manufacturers with any financial tie to a commercial tobacco manufacturer.* If your abstract received either direct or indirect funding from an above-defined company, your abstract will not be accepted for peer review.

Creating A New Submission

In 2024, SRNT implemented a completely new abstract system. If you are a current SRNT member or a non-member who submitted an abstract in 2024, you should login to the system using those credentials. If you can not remember your login, please use the "Forgot Password" link, or contact us at **abstracts@srnt.org**. **DO NOT CREATE A NEW PROFILE.** This may cause your submission to be rejected.

PLEASE NOTE: All submitters must have a profile in the submission platform to submit an abstract. If you are a current member or a non-member who submitted an abstract in 2024, then you already have a profile. If not, then you will be able to create a new profile to complete your abstract submission. Symposia submitters should contact the individual presenters listed in their submission to ensure that you have a correct and preferred email for each presenter. This includes discussants and co-chairs, if needed.

Each abstract submission is divided into 3 steps to make the process as smooth as possible:

Step 1. Login to the abstract submission system. You will be prompted to login. If it is your first time logging into the system, select the "New User? Create an Account" option listed in the "Actions" tile. If you have already set up an account in the new system, use the "Existing User? Log In" option.

Step 2. Prior to submitting your symposium or abstract, we STRONGLY recommend that you click on the "Instructions" tile. Full instructions are listed on that page and can be downloaded to assist you as you complete your submission. Once you have read the instructions, click on the "Abstracts" tile to start your submission. You can submit multiple abstracts, as well as go back and edit your submissions.

You will be able to see all of your submissions listed on your submission dashboard page. You must complete all of the required fields in order to finalize and submit your abstract. The individual steps will have a green check mark when you have completed each step.

Step 3. Once you have completed all of the steps, click the "Submit Abstract" button at the top of the page. You will see a pop-up that confirms your submission status. An email will also be sent to the email address you used to create your account.

You can submit multiple abstracts, as well as go back and edit your submissions until July 31, 2026. All of your submissions will be shown in your submission dashboard.

Presentation Formats

The following are presentation formats for the 2027 Annual Meeting:

PAPER ONLY
Abstracts that receive high peer-reviewed ratings and cluster around common themes will be selected for oral presentations of approximately 15 minutes each. Please note that program time constraints limit the opportunity for lengthy oral presentations. Unlike

the "Paper or Poster" option, abstracts submitted as "Paper Only" will NOT be considered for a poster presentation.

PLEASE NOTE: Individuals will be allowed to present a maximum of two (2) oral papers at the meeting. This includes paper and symposia sessions. If an individual is listed as a presenter on more than two (2) presentations, they will be offered the option of assigning a different co-author as a presenter.

POSTER ONLY
Poster sessions allow presenters to discuss their research with interested colleagues over a period of 90-120 minutes in an informal setting. No other sessions will coincide with the poster sessions to maximize exchange of results and promote communication among researchers with common interests. Poster submissions judged to be especially rigorous and significant may be selected for presentation as a paper with author permission.

PAPER OR POSTER
Any abstract submitted under the "Paper or Poster" option that is not selected for an oral presentation will automatically be considered for a poster presentation.

SYMPOSIA
Selected symposia examine important issues from a variety of perspectives and have compelling supporting data. Over a 90-minute period, three to six speakers (abstracts) and a discussant present and/or debate alternative solutions, interpretations, or points of view on a body of knowledge. Please note that symposia submissions are reviewed competitively and not all submissions will be included in the final program. Preference will be given to symposia that are especially timely, or that span a range of disciplines. In the event the overall symposium is not selected for presentation, individual presenters will have the option of having their abstract considered as an oral paper or poster presentation.

Topics

Presenting/lead authors will be asked to select one of the following topics in which their abstract submission will be reviewed: Pre-Clinical, Clinical, Public Health, Health Equity, Policy, Regulatory Science.

Keywords

Each presenting/lead author will be asked to select at least two, and up to three, of the following keywords that best describe the abstract submission:

- Abuse Liability
- Addiction/Dependence
- Adolescents
- Adults
- Advertising & Marketing
- Advocacy
- Alcohol Comorbidities
- Animal Models
- Anthropology
- Behavioral Economics
- Behavioral Treatment
- Biochemistry
- Biostatistics
- Cancer
- Cannabis/Marijuana/Cannabinoid Comorbidities
- Cardiovascular
- Cell Models
- Ceremonial/Traditional Tobacco
- Cessation
- Chemistry
- Children
- Cigarette
- Commercial Tobacco Industry
- Communications
- Community Engaged Research
- Community Intervention
- Discrimination
- Disparities
- Dissemination
- E-cigarette/Nicotine Industry
- E-cigarettes/ENDS/Vaping
- Economics
- Education/Training
- Endgame
- Epidemiology
- Epigenetics
- Epigenomics
- Equity
- Exposure: Prenatal
- Exposure: Secondhand
- Exposure: Thirdhand
- Exposure: Transgenerational
- Flavored Products
- Flavored Tobacco Sale Restrictions
- Genetics
- Genomics
- Geography
- Global Health
- Harm Reduction
- Health Disparities
- Health Education
- Heated Tobacco Products
- HIV/AIDS
- Immigrant Populations
- Incarcerated and Formerly Incarcerated People
- Indigenous People
- Inequities
- Informatics
- Large Cigar
- Legislation
- Little Cigar/Cigarillo
- LGBTQ+
- Longitudinal Research
- Mendelian Randomization
- Mental Health
- Menthol
- Meta-Analysis
- Metabolism (Phase I and/or Phase II)
- mHealth
- Mixed Methods
- Molecular Biology
- Neuroimaging
- Neuropsychology
- Neuroscience
- Nicotine Patches
- Nicotine Pouches
- Nicotine Properties or Derivatives
- Nicotine Reduction
- Nicotinic Receptors
- Nutrition

Older Adults
Opioids Comorbidities
Oral/Smokeless Tobacco
Packaging
People with Disabilities

Transdisciplinary
Tribal Communities
Unhoused People
Warnings
Waterpipe/Hookah
Weight
Withdrawal
Women
Young Adults
Youth

Abstract Submission Instructions

SRNT implemented a new abstract submission and review platform in 2024. ONLY submissions entered through this platform will be reviewed or considered for inclusion in the 2027 program. **Electronic submissions must be received by 11:59 p.m. PDT on Friday, July 31, 2026, to be considered for inclusion in the program.**

When preparing an abstract for submission, please carefully follow the instructions below:

- All abstracts must be prepared in plain text, in English, with **no embedded symbols or formatting characters. Submissions may not include charts, graphs, tables, or references**. Please spell out the symbols (alpha, beta, microns, picomolar, etc.) or translate them (mean, chi square, etc.) in your abstract submission.
- Limit the abstract to **2,500** characters in length (including spaces but NOT including title, authors, or funding information).
- **IMPORTANT:** Data presented in the abstract as "work in progress" will not be considered for program inclusion.
- **If accepted, your author-prepared abstract <u>will be published exactly as it appears on your electronic submission</u>.** You will be able to make changes to your abstract until 11:59 p.m. PDT on Friday, July 31, 2026. (No changes will be allowed after this deadline.)
- Ensure that each abstract reveals all sources of funding for the work described. Abstracts submitted without funding information will be rejected.
- **Please note that paper and symposia submissions will require three learning objectives for CE credit. Poster submissions should include at least one learning objective.**
- A keyword index will be included (see above) in the 2027 Annual Meeting Proceedings. Please select at least two keywords to describe your abstract.
- You must provide complete contact information, including email address, of the presenting/lead author with your submission. **The SRNT Office will communicate ONLY with the presenting/lead author through the email address given at the time of submission.** It is the responsibility of the presenting/lead author to communicate with the rest of the authors. Should this email address change at any time, please notify the SRNT Office immediately so that you receive timely correspondence regarding your abstract submission.

- Proofread your submission. **If accepted, your author-prepared abstract will be published exactly as it appears on your electronic submission. SRNT is not responsible for author errors and will not proof individual submissions for spelling or content.**
- Each presenting/lead author will receive an email confirmation from the submission system within 24-48 hours of abstract submission. Please keep a copy of this confirmation email for any late editing of your abstract. **If you do not receive an email response within 48 hours, your abstract submission was not auccessful.** In this case, it is your responsibility to contact the SRNT Office via email at: **abstracts@srnt.org**.
- Consider submitting your abstract earlier than the deadline. SRNT welcomes early submissions!

Symposium Submissions

For abstracts to be considered for a symposium format, please follow these additional instructions:

- Prepare a summary abstract of the symposium as a whole (**2,500** characters limit, including spaces but NOT including title, authors, or funding information). List the names and affiliations for the symposium chair, each presenter, and the discussant, as well as the name and address of the presenting/lead author. Provide a concise description of your proposed presentation in narrative form.
- **Symposia submitters will be required to identify each of their presenters, including email address. The system will send an invitation to each of the listed presenter asking them to enter their abstract information.**
- Symposia submitters will be notified when each presenter completes their individual abstract submission. **The symposium submitter is responsible for making sure that all individual presenter abstracts are submitted before the deadline.**
- **Symposia submitters will have the option to indicate a separate peer-review of each abstract (for presentation as paper or poster) if the overall symposium submission is rejected.**
- The symposium submitter will be responsible for corresponding with the presenters in their group, other than the initial invitation to submit their abstract. **The SRNT Office will send all correspondence to the symposium submitter only.**

IMPORTANT: As the person submitting the symposium, it is entirely your responsibility to communicate any acceptance or rejection, or other SRNT notices to all the symposium authors in your group. All PRESENTING authors within your group are required to submit a financial disclosure and biographical sketch or they will not be allowed to present at the meeting. This required information will be collected by SRNT's CE provider between December 2026 - January 2027 for CE credit.

Disclosure Information

All lead authors and/or presenting authors must answer the mandatory financial disclosure questions as part of the abstract submission. This is required by SRNT's CME provider.

Publication of Abstracts

Oxford University Press will publish the 2027 Abstract book. Once published, abstracts will be citable, which will be a tremendous benefit for all accepted presenters, whether oral or poster. If you do **NOT** want your abstract to be published, you may opt out.

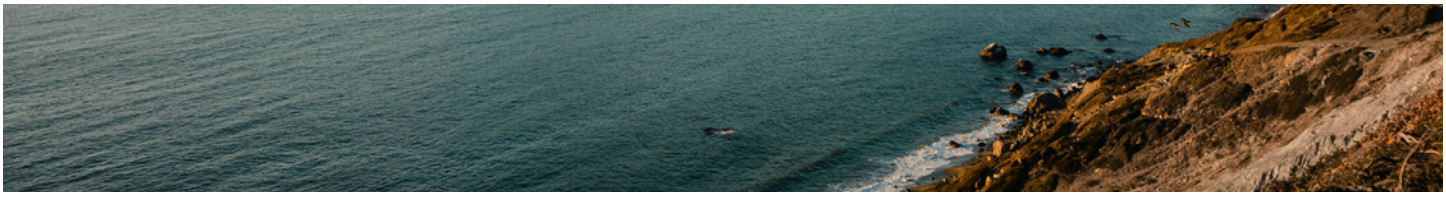
Rapid Response Abstract Submission

The opening and closing dates for Rapid Response abstracts will be announced in late October or early November. Instructions and forms for on-line abstract submissions of Rapid Response posters will be post on the SRNT meeting site in November 2026.

Rapid response abstracts are expected to describe data or analyses that were not available at the regular submission deadline in July 2026.

Technical Support

For help with technical issues regarding the use of the abstract submission system, please use the help button on the submission dashboard. This can be accessed by clicking on your name in the upper right corner of the screen and then selecting "Help" from the drop-down menu. You can also contact SRNT directly at **abstracts@srnt.org**.

***


Thank you for your submission! We look forward to seeing you in San Francisco in 2027!
